

A Legacy of Expertise in Polymer Science

Beainnina of Radiation Chemistry Research

started by Paul Cook

1960-1970

1957 **Ravchem** Founded by Paul Cook

Raychem Invents Tubing & Polymer X-linked **Products**

Raychem Invents Self-Regulating **Heating Technology**

Heat Shrink

1980-90s

Expanded Portfolio

Steam cleanable cable, long line heaters. connection kits

New **Applications**

Commercial products, leak detection, offshore, and skin-effect tracing systems

2003-2006

Acquisitions

Accutron, Tracer, LG Heat-Trace, Pyrotenax

Rail and Series Heating Portfolio

Sandwich **Technology**

2016 **Raychem LSZH**

> Low smoke zero halogen polymers for self-regulating cables

2021

New **High Power** Retention **Technology**

2022

75 Years Expertise in

polymer science

50 Years

Expertise in self-regulating technology

Legacy of Innovations. 100's of Patents.
