

INDUSTRIAL RELIABILITY AND PERFORMANCE FROM NVENT RAYCHEM PRODUCTS & TRACER TURNKEY SERVICES

nVent protects critical processes with heat management solutions for a wide range of industrial markets: oil & gas production, transport and storage, petrochemical, chemical, pharmaceutical, manufacturing, power, mining, ...

- 1** Anti-icing & de-icing
- 2** Heating of subsea transfer lines
- 3** Frost Heave prevention of cryogenic LNG tanks
- 4** Long line heating with STS skin effect systems & pre-insulated pipes
- 5** Leak detection with TraceTek detection systems
- 6** Tank insulation with Trac-Loc vertical lock seam systems
- 7** Tank heating
- 8** Process temperature maintenance
- 9** Pipe freeze protection
- 10** Pre-traced, pre-insulated tubing for instrumentation & sample lines
- 11** Control & Monitoring with RAYCHEM systems
- 12** Power distribution
- 13** Fire & performance wiring
- 14** Comfort & safety heating
